THE PROGRAMME

Preparing for an ICF credential takes more than mentor coaching hours. Our Credential Coaching Journey combines live group learning, individual mentor coaching, and competency observations to help you strengthen your coaching skills, refine your unique style, and prepare your credential application with confidence. Guided by two experienced MCCs, ICF Assessors, and Mentor Coach Specialists (MCS), you'll receive evidence-based feedback on three coaching recordings while deepening your mastery of the ICF Core Competencies. We go beyond assessment to support lasting coaching excellence.
